

# ABOUT US

## *“Value to Our Customers”*

DTSI is a woman owned small business headquartered in El Paso, TX that has been providing Information Technology (IT) services to federal, state and local government agencies for over three decades.

DTSI is currently providing over 150 IT professionals supporting Air Force enterprise systems utilizing Oracle HR development platforms. Our experience encompasses services and delivery of highly technical information technology for a variety of DoD and civilian government customers. DTSI's technical expertise has enabled our DoD customers to accomplish their mission in support of our Warfighters. Our technical performance is based on proven processes as evidenced by the environments in which we perform and our own respective corporate and employee based certifications.

DTSI offers its customers the benefit of thorough knowledge of the latest technology platforms, solutions, and integration techniques operating in multi-platform environments. This diverse mix of information technology expertise allows DTSI's customers to achieve their transformation objectives of mission-critical systems.
